

## UPSONIC ESAT20

Energy Saving UPS Device 2.0KVA

## ESAT20

Accessories for Commercial Door Operators / Power Supply Systems / UPS Device

Grifco is proud to distribute the Upsonic ESAT20 UPS Device for the Commercial and Industrial Door Industry.

The Upsonic ESAT20 UPS Device has quickly become the industry standard for individual uninterrupted power supply within the commercial and industrial door industry.

Apart from providing power in the absence of mains power, UPS devices also protect against spikes, surges, brownouts and EMI noise.

### Key Features

- Uninterrupted Power Supply, suitable for Grifco single-phase operators up to 1Hp
- Intelligent Charging controlled
- Range 1.0KVA - 7.5KVA
- Intelligent interactive LCD control panel
- Compact design
- Cold start. Starts on battery, no mains power required
- Protection against overload, overheating, surges, spikes, short circuit, over charging
- Easy battery replacement

### Compatibility

Compatible with single-phase Grifco operators including:

- eDrive +2.0 RKML Operators
- eDrive +2.0 Operators
- mDrive Operators
- Fire Shutter Operators
- Poultry Winches
